Sunday Times and Behaviour & Attitudes

**March Opinion Poll 2018**

Prepared by Ian McShane,  
Behaviour & Attitudes  
J.8878

# Technical Appendix

# Technical Appendix

## Sample Size

The results of this opinion poll are based upon a representative sample of 900 eligible Irish voters aged 18 years +.

## Fieldwork

As such, the results can be deemed to be accurate to within plus or minus 3.3 percentage points at the 95% confidence level. Fieldwork was conducted on an in-home, face-to-face basis over the period 6th – 13th March, 2018.

## Location

The sample was stratified across all constituencies at 125 locations in the country with individuals selected for interview by way of Demographic Quotas (age, gender, socio-economic status) in line with Central Statistics Office (CSO) and market research industry population estimates.

# Technical Appendix

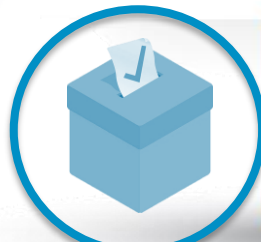

## Weighting

The subsequent survey results are weighted to reflect the known demographic profile of Irish adults, utilising the most recently published census population estimates from the Central Statistics Office (CSO).

## Party Support

Party support levels are subsequently realigned in accordance with a technical adjustment factor, designed to smooth the effects of extreme highs and lows in support levels for individual parties as measured at a single point in time, and taking variable election day turnout levels into account.

## Guidelines

All aspects of the survey, including the Party Support adjustment factor, are implemented in accordance with the technical and ethical guidelines set down by the Association of Irish Market Research Organisations (AIMRO) and the European Society of Opinion & Market Research (ESOMAR).

# Party Support Adjustment Factor: Technical Note

- Predicting election results on the basis of poll data is not an exact science. All the evidence shows that support for individual parties can swing dramatically in the period between elections- very often outside the bounds of historic election results.
- What to do in these circumstances? Most polling companies in Britain and Ireland publish their raw survey results as an index of fluctuations in the emotional mood of voters. They also build in an adjustment based on a number of factors. Where we have reports of how people voted in the last general election as well as how they intend to vote in the next one we can use these data to model the likely level of swing from the last election results.
- We then add back in the forecasts of voters who have not voted last time or do not answer that particular question.
- Finally we take into account each individuals stated likelihood of voting in a forthcoming General Election.
- This is the basis of the adjusted voting forecast in Behaviour & Attitudes polls.

- Adjusted figures based on:

- ❖ All who state they would definitely vote
- ❖ Weighting of those respondents who give a definite answer as to who they would vote for in a general election and who they voted for in the last election, a quarter of the way between stated voting intention and the result of the last election.
- ❖ Making no adjustment to stated voting intention of those who do not indicate how they voted in last election.

# Party Support Levels – Detailed Breakdown (excluding undecided/adjusted)

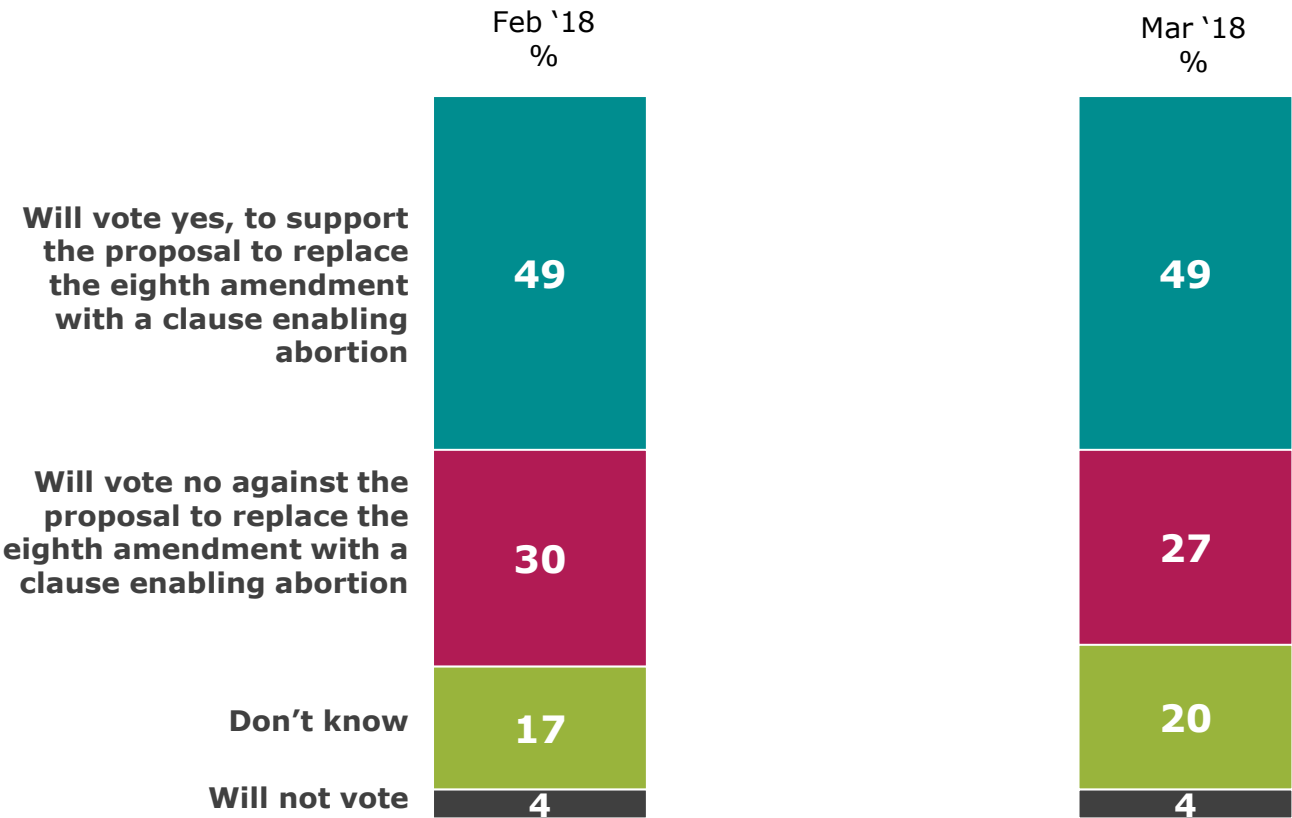

# Party Support Levels – Detailed Breakdown Trend (Excluding Undecided – Adjusted)

# Voting Intentions: Repeal of Eighth Amendment

Base: All Irish voters – Feb 926/Mar 900

As you probably know, the Government is planning to hold a referendum on the possible repeal of the eighth amendment of the constitution which recognises the right to life of the unborn as equal to that of the mother. It proposes to replace the eighth amendment with a clause that says 'Provision may be made by law for the regulation of the termination of pregnancy'.

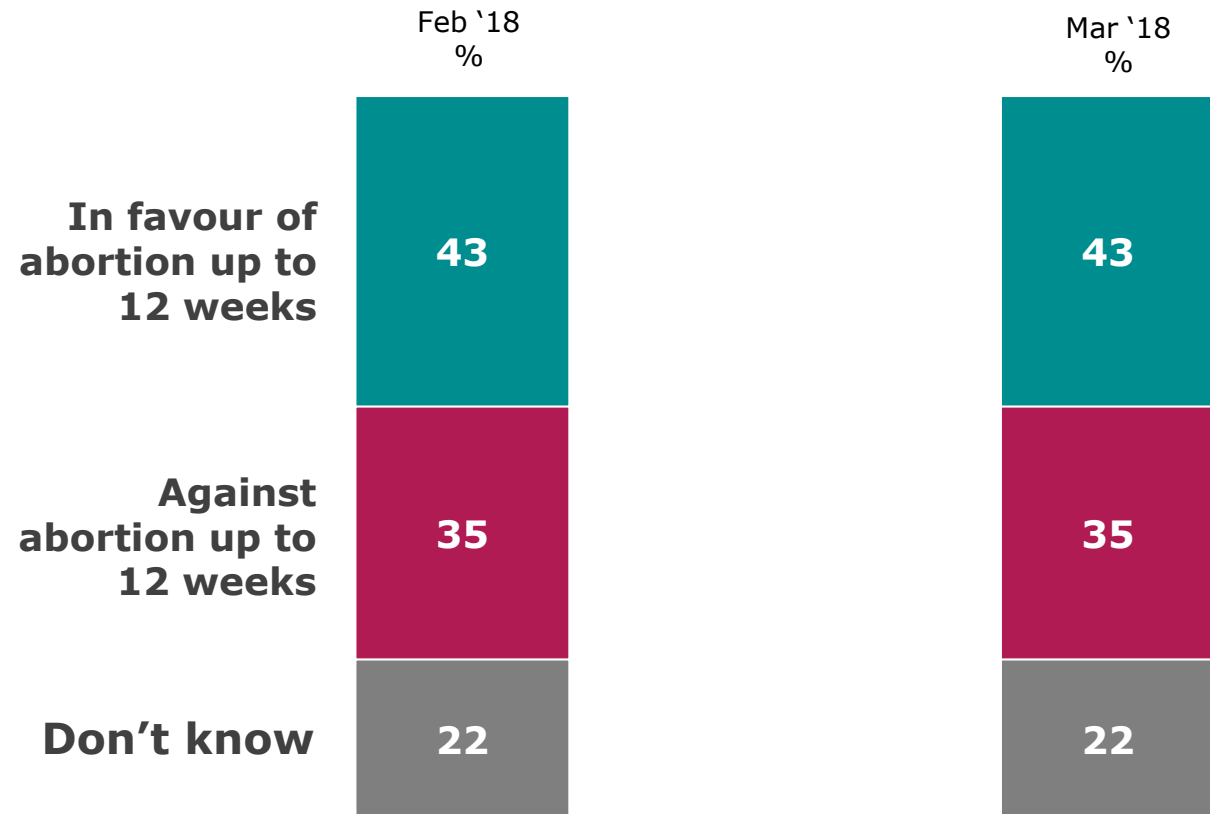

# Attitudes towards legislation to allow abortion without restriction up to 12 weeks of pregnancy

Base: All Irish voters Feb 926/Mar 900

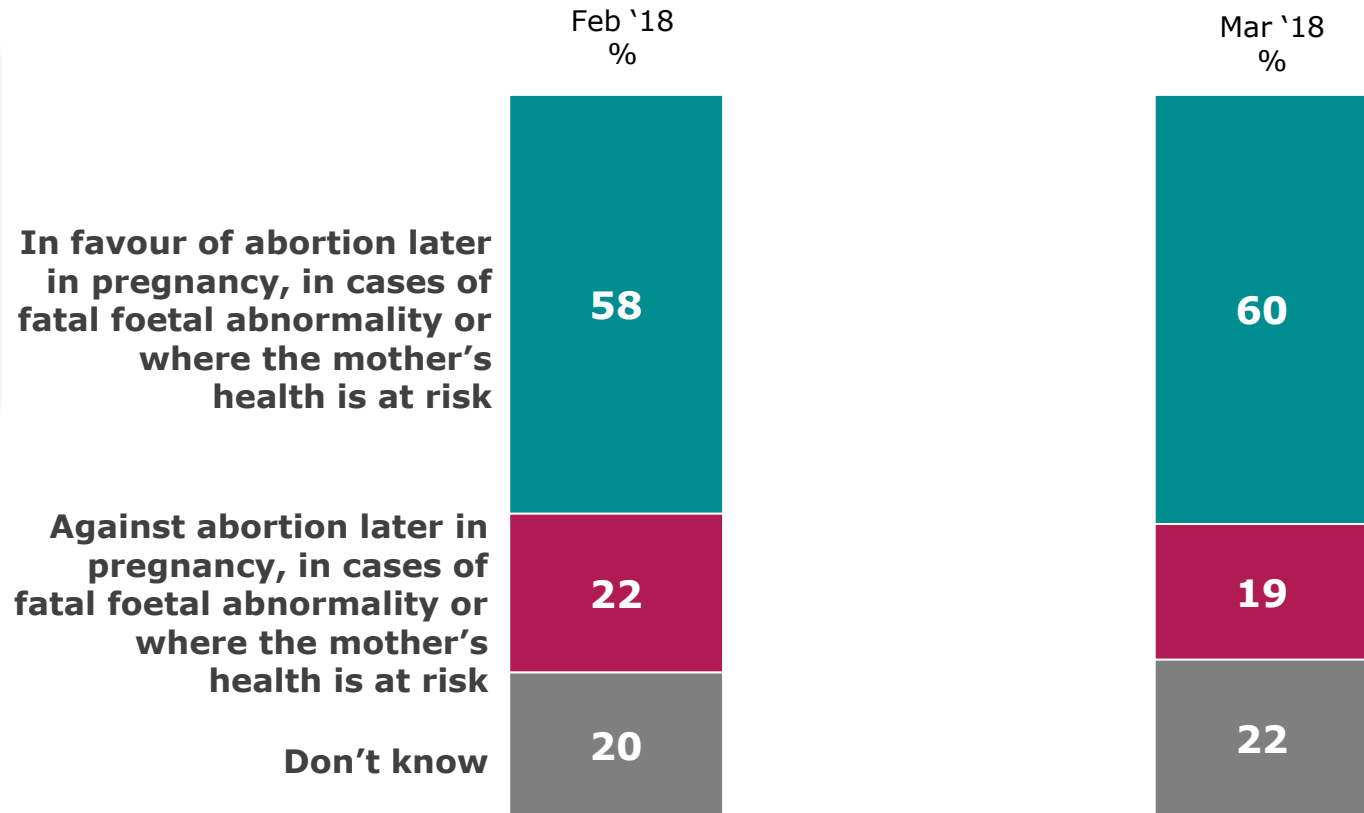

And if the eighth amendment is repealed, would you be in favour of or against legislation to allow abortion without restriction up to 12 weeks of pregnancy?

# Attitudes towards legislation to allow abortion later than 12 weeks in cases of fatal foetal abnormality, or where the mother's health is at risk

Base: All Irish voters Feb 926/Mar 900

And would you be in favour of or against legislation to allow abortion later than 12 weeks in pregnancy, in cases of fatal foetal abnormality, or where the mother's health is at risk?

# Attitudes towards legislation to allow abortion without restriction up to 12 weeks of pregnancy x Referendum

## Voting Intentions

Base: All Irish voters - 900

Will you vote yes, to support the proposal to replace the eighth amendment with a clause enabling abortion, or no, against the proposal to replace the eighth amendment with a clause enabling abortion, in this referendum?

Will vote **yes**, to support the proposal to replace the eighth amendment with a clause enabling abortion

Will vote **no** against the proposal to replace the eighth amendment with a clause enabling abortion

# Commentary

# Sunday Times/Behaviour & Attitudes Opinion Poll Series

## Background

Fieldwork for today's Behaviour & Attitudes/Sunday Times Poll was conducted over the period Tuesday, 6<sup>th</sup> March to Tuesday, 13<sup>th</sup> March, 2018.

In last month's poll we witnessed a significant increase in both Government satisfaction, and in Leo Varadkar's performance as Taoiseach. Correspondingly, we saw support for Fine Gael increase from 32% to 36%.

Thus, there were no signs of Leo Varadkar's honeymoon period as Taoiseach receding, with his party, and the Government in general, riding the crest of a wave.

Over the four week period since that last poll a number of factors have unfolded, which are likely to have influenced public opinion.

Arguably, the most significant of these was the launch of the Ireland 2040 - National Development Plan, the media coverage of which received significant opposition criticism.

Regardless of the manner in which the details of the plan was communicated, it will certainly have provided clarity to voters as to Government priorities over the next twenty years or so, and the means by which these objectives might be met.

# Sunday Times/Behaviour & Attitudes Opinion Poll Series

## Background

Fieldwork also coincided with the Supreme Court ruling that the only right that the unborn has under the Constitution is the right to life set out in the Eighth Amendment.

This ruling opened the way for the Government to proceed with plans for a Referendum on the Eighth Amendment in late May, and the cabinet shortly thereafter approved the wording of the Referendum which citizens will vote on.

# Sunday Times/Behaviour & Attitudes Opinion Poll Series

## Party Support and Leader Satisfaction Levels

Satisfaction with the manner in which the Government is running the country has increased, albeit insignificantly, by two percentage points over the last month to 50% today. Indeed, the average Government satisfaction rating for the first three months of 2018 is 47% - compared to an average of 44% for the four months preceding Christmas that Leo Varadkar was in charge as Taoiseach.

The proportion of voters satisfied with the Government is greater than those who are dissatisfied across all socio-demographic groupings including age, gender and socio-economic status.

59% of the general public is also satisfied with the performance of Leo Varadkar as Taoiseach – a figure which has risen more or less consistently since Varadkar's election to the position last year, at which stage his personal satisfaction rating stood at a still impressive 49%.

At a national level, there are now almost twice as many people satisfied with the Taoiseach as are dissatisfied, with just 10% of all voters undecided in this regard.

Again, Varadkar's popularity is consistent right across the country and amongst all demographic groupings, with a majority of Fine Gael, Fianna Fáil, Labour Party and Green Party supporters happy with the job he is doing.

# Sunday Times/Behaviour & Attitudes Opinion Poll Series

## Party Support and Leader Satisfaction Levels

Micheal Martin's personal satisfaction rating is also impressive, at 55%, and averages out at 51% over the last 12 months. Martin's popularity is particularly strong amongst those aged 35 years+ living in urban areas, and at 86% satisfaction amongst core Fianna Fáil voters, his position as leader of the party is rock solid in advance of the next election.

44% of the electorate is happy with Brendan Howlin's performance as leader of the Labour Party (compared to 45% last month), with 37% dissatisfied. Dissatisfaction with Howlin is highest amongst males (41%), 35-54 year olds (39%), and residents of both Dublin (40%), and Connaught/Ulster (43%).

This is the first poll conducted since Mary Lou McDonald's election as leader of Sinn Féin, and already that party is experiencing a boost in fortunes.

As such, McDonald's personal satisfaction rating enters the charts, so to speak, at 46% - a full 7 percentage points higher than that achieved by her predecessor Gerry Adams during the final weeks of his tenure.

McDonald's satisfaction rating is actually higher amongst those aged 35 years+ (48%) than it is amongst 18-34 year olds (42%). Apart from the farming community, the new Sinn Féin leader is as popular amongst professional working individuals as she is amongst blue collar workers, although her popularity is a little higher in urban areas (49%) than it is in rural regions (42%). McDonald's honeymoon period also extends to Sinn Féin party support, which witnesses an increase from 16% nationwide last month to 19% this March.

# Sunday Times/Behaviour & Attitudes Opinion Poll Series

## Party Support and Leader Satisfaction Levels

Sinn Féin support peaks amongst those aged 18-54 years (22%), C2DE blue collar workers and social welfare dependents (24%), and in rural areas (22%).

While support for Fine Gael has dipped 4 percentage points from 36% in February to 32% today, the party is still the most popular in the country, particularly so in the Dublin region, where it is currently attracting almost twice the level of support as Fianna Fáil.

Notwithstanding that, Fianna Fáil will be happy with its standing in today's poll insofar as its support has increased two percentage points to 27% - its highest showing so far this year.

While support for the Independents and smaller parties has slid consistently since the last General Election (from the 26% achieved in the election to just 16% support in today's poll), it is worth noting that support for this bloc is actually very healthy amongst female voters, amongst whom it commands 22% support, twice that of their male counterparts.

Similarly, 19% of all urban voters indicate support for such smaller players, compared to 12% of all rural dwellers.

Finally, Labour Party support currently registers at 6% - higher than the average level of support it had achieved throughout 2017, but still only on a par with its 2016 General Election performance.

# Sunday Times/Behaviour & Attitudes Opinion Poll Series

## Repeal the Eighth Amendment Referendum

The same series of questions around the forthcoming abortion Referendum were posed to respondents in today's poll as were administered last month. As such, we can draw direct comparisons between the two surveys, and the extent to which public opinion has shifted in this regard.

At a national level, 49% of all Irish voters indicate they currently intend to vote yes, to support the proposal to replace the Eighth Amendment with a clause enabling abortion.

This is the very same level of support registered last month and again is highest amongst younger voters, professional/clerical workers, and Dublin area dwellers.

There has, however, been a marginal drop in the proportion indicating they will vote no, against repealing the Eighth Amendment, from 30% in February to 27% today. All of this 3 percentage point drop in those likely to vote no in the Referendum has shifted into the 'don't know' category.

When asked, at a subsequent question, whether they would be in favour of or against legislation to allow abortion without restriction up to 12 weeks of pregnancy, the pattern of response in March is identical to that measured in February. That is, 43% favour the availability of abortion up to 12 weeks, 35% are opposed to it, with 22% undecided.

# Sunday Times/Behaviour & Attitudes Opinion Poll Series

## Repeal the Eighth Amendment Referendum

When we cross-analyse responses to these two questions, we can calculate that 41% of all Irish voters currently indicate that they will both vote 'yes' in May's Referendum to repeal the Eighth Amendment, **and** are also in favour of the availability of abortion up to 12 weeks.

This compares to 26% who tell us they will both vote 'no' to repeal the Eighth Amendment, **and** are also against the availability of abortion up to 12 weeks.

Amongst those who have a clear opinion on both questions, therefore, we have a 60:40 split between those likely to vote to repeal the Eighth Referendum, and those likely to vote against it. The fate of the Referendum therefore lies in the hands of the remaining one-third of the electorate who are currently prevaricating on the matter, and these in turn would need to break by a margin of 3:1 towards a no vote for the Referendum to be lost.
